Kate – BLM is a PRP from the perspective of ownership but I think that Richard Sisk, EPA attorney can better speak to this than I can.

We have been working closely with BLM as a partner and they recognize their responsibilities as a federal landowner.

Paula,

Do you have any background documentation that describes how BLM is involved from the RP perspective at the Upper Animas site? I just want to make sure there is no conflicts with DOI performing an independent review for Gold King.
